19 Structured Text Programming Infopl

Structured Text is PLC programming language defined by PLCOpen in IEC 61131-3. The programming language is text-based, compared to the graphics-based ladder diagram or Function Block Diagram. At first, it may seem better to use a graphical programming language for PLC programming. But in my opinion, that is only true for smaller PLC programs.

Structured Text Tutorial For PLC Programmers

Background and Benefits of Structured Text Structured Text (ST) is a high level textual programming language that is syntactically similar to Pascal. It is developed and published by IEC in the IEC 61131-3 international standard in 1993, which is aimed to standardize programming languages for programmable logic controllers (PLC).
