remarkable and inspirational story in *Invention: A Life*. Famously, over a four-year period, James Dyson made 5,127 prototypes of the cyclonic vacuum cleaner that would transform the way houses are cleaned around the world. In devoting all his resources to iteratively developing the technology, he risked it all, but out of many failures and setbacks came hard-fought success. His products—including vacuum cleaners, hair dryers and hair stylers, and fans and purifiers—are not only revolutionary technologies, but design classics. This was a legacy of his time studying at the Royal College of Art in the 1960s, when he was inspired by some of the most famous artists, designers, and inventors of the era, as well as his engineering heroes such as Frank Whittle and Alex Issigonis. In *Invention: A Life*, Dyson reveals how he came to set up his own company and led it to become one of the most inventive technology companies in the world. It is a compelling and dramatic tale, with many obstacles overcome. Dyson has always looked to the future, even setting up his own university to help provide the next generation of engineers and designers. For, as he says, “everything changes all the time, so experience is of little use.” Whether you are someone who has an idea for a better product, an aspiring entrepreneur, whether you appreciate great design or a page-turning read, *Invention: A Life* offers you inspiration, hope, and much more.

Currently ranked World No. 1 in women's doubles, Sania Mirza became an instant sensation when she won the Wimbledon Championships girls' doubles title at the age of sixteen. From 2003 until her retirement from the singles circuit in 2012, she was ranked by the Women's Tennis Association as India's top player, both in singles and doubles. A six-time Grand Slam champion, she notched up an incredible forty-one consecutive wins with her doubles partner,

Martina Hingis, between August 2015 and February 2016. Ace against Odds is the story of this most iconic Indian player who beat incredible odds to get to the top of her sport. Sania writes with candour of the hardships along the way, of the physical and emotional trauma caused by injuries and medical procedures, of the friends and partners who became her mainstay along with her family, of the pressures of constant public scrutiny and, not least, the politics and heartbreaks that inevitably accompany success. Sania broke the rules, she spoke her mind, she pushed herself to the limit, she played for India fiercely and without care for how it might impact her rankings - she is and will continue to remain an inspiration long after she steps off the tennis courts

Hustling Against the Odds—the book and title was inspired by a national bestseller I read given to me by my father, a book he read while in prison called Succeeding Against the Odds, which is an autobiography by John H. Johnson, who was an American businessman. John H. Johnson was a black man who succeeded going against the odds a black man commonly faces in the American society. My book goes into the odds I faced as a black man in that same society, making the accomplishments I have this far in life but from a different, more unique prospective. My book is a tell-all about my journey in life thus far and highlights the truth about the American society as it relates to every black person.

Memoirs of sleight-of-hand practitioner and authority on gambling and odds.

This is a story of a young boy growing up in a close-knit family in Eastern Europe, influenced by intrigues of national politics in pre-World War II. This autobiography dramatizes his life and survival at the end of WWII and the terrible period after the war, where he lost most of his family. It shows that with Gods grace, a hopeless situation can be turned around by hard work and an iron will to succeed.
