...

The back-staff was invented by John Davis in 1590 and it allowed the navigator to stand back from the sun and work with the shadows. It was a great invention for one of the problems with the cross-staff was that you have to look at the sun and this led to blindness and damage to the navigator's eyes but, the back-staff worked with the

Global health, wealth and education are booming. Scientific discovery is flourishing. But the same forces that make big gains possible for some of us deliver big losses to others-and tangle us together in ways that make everyone vulnerable. We've been here before. The first Renaissance, the time of Columbus, Copernicus, Gutenberg and others, redrew all maps of the world, liberated information and shifted Western civilization from the medieval to the early modern era.
