Agile Contracts: Creating and Managing Successful Projects ...
The Agile fixed price is a contractual model agreed upon by suppliers and customers of IT projects that develop software using Agile methods. The model introduces an initial test phase after which budget, due date, and the way of steering the scope within the framework is agreed upon. This differs from traditional fixed-price contracts in that fixed-price contracts usually require a detailed and exact description of the subject matter of the contract in advance. Fixed price contracts aim at mini
