extinction of the dinosaurs? A meteor strike that levels whole forests in Siberia? You get the drift. Some events produce such a massive setback to life, the Earth and to humanity that we must understand and prepare for them, even if the chances are low that they'll come about. In fact, it will be criminal and abrogation of our duty to future generations if we do not get ready! But where to begin? Drs. Travis S. Taylor and Bob Boan have the answers. Both are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with both the Department of Defense and NASA. These are intellectual heavyweights who have a clear idea of the possibilities of alien contact, the calculations of whether or not that contact will be friendly...and what to do if it's not. “A very powerful book . . . Druffel’s research does us all a great service.”—Dr. Edgar Mitchell, Apollo 14 astronaut and author of *The Way of the Explorer* In 1988 Ann Druffel, who has researched UFOs for forty years, discovered a little-known fact that had been drowned in abduction hysteria—documented evidence that people have successfully fended off attack by the “greys,” the short, big-eyed aliens now familiar through so much popular media. Using her database of 250 case studies, including seventy “resisters,” Druffel has ascertained nine techniques that witnesses use to ward off alien entities and even break off abductions in progress. And perhaps
