This book examines different authority teachings and practices common in the so-called New Apostolic Reformation Movement and in many independent Evangelical churches. Topics often heard within that movement deal with issues such as: church government and order, ruling over, honor/culture of honor, authority and submission, loyalty, spiritual fathering and sonship, spiritual covering/apostolic covering" and others. This book critiques these themes and finds them to be biblically without merit as typically presented and toxic in their harmful effects in those who have had the misfortune to be exposed to them. Many who may ask an honest question of leadership are often accused of being disloyal, being "wounded," having a problem with submission to authority, or having a "Jezebel spirit," the so-called "set-man," and other controlling canards. This book will equip readers with the ability to resist the forceful presentation of the distorted doctrines. It will help those who have experienced these things recover from the damage that they have endured, and it will inoculate others who have not been exposed to the abusive doctrines. This book provides antidotes and solutions for healthy relationships in a new covenant community of grace that

does not capitulate to the anarchic spirit of our times under the guise of spiritual liberty.

There is a new apostolic movement afoot, and it is leading many from the simplicity of the pure gospel. To be legitimate, the teaching emphasis and ministry expression of present-day apostles and prophets must reflect a correct gospel foundation: . the person and work of Christ as its focus, . spiritual death and resurrection as its method, . and the indwelling Spirit as its power. Instead, the new apostolic reformation movement, with its emphasis on apostolic authority, "spiritual covering," loyalty, honor, submission, and government, has become the vehicle to build the philosophies and kingdoms of men. Dr. Stephen Crosby's third book, Authority, Accountability, and the Apostolic Movement, probes these and other authority/submission issues from a biblically disciplined, Christ-centered, New Covenant perspective. Within these pages, every believer, church leader, apostle, or prophet who may have wandered from the simplicity of the gospel can find the road to recovery. Oh, where was this book when I was in seminary!? As the fourth in a spiritual lineage of shipwrecked preachers, I can testify to the life-threatening impact brought on by the stress of liv-ing under a faulty understanding of authority and control in the church. The Apostolic Canopy is a book that describes the relationship dynamics of the fivefold ministry: apostles, prophets, evangelists, pastors and teachers. This book addresses these individual roles and how they work together to reach and equip God's people to establish his kingdom. For too long the notion that apostles existed only in the first century or so of church history is no longer a valid argument. Today, it is evident that the fivefold ministry is rapidly emerging and mobilizing for the end time revival harvest that will sweep the globe. Apostles play the preeminent role among God's government, hence, the Apostolic Canopy. In this book you will understand the functional and relational dynamics of the Apostolic Canopy model. For you to embrace this model you must first understand and appreciate the role that each of the fivefold ministries plays in a person's life to reach, develop and send them to their destiny. apostolic office. Not only in the execution of this ministry, but also in the perspective for which it is received. In this book, we will explain the apostolic paradigm shift God is sending in the Church.

This book explores biblical values that critique the ecclesiology of the New Apostolic Reformation Church (NARC) and compares the ecclesiology to other missional movements in the North American context. A biblical exegesis of Ephesians 4:11-13 as well as C. Peter Wagner's conceptualization of an apostle and apostolic ministry allow the author to demonstrate the gap between the biblical perspective and Wagner's concept of an apostle. The biblical role of an apostle is to make the church missional by emphasizing the concept of sending, whereas Wagner sees the apostle as a church leader. Based upon interviews and participant observation in three NARCs, SuYeon Yoon describes the leadership and ecclesiology based on their own self-descriptions. This book then demonstrates the gap between the biblical and conceptual ideals and the reality of ecclesial practice. The author argues that the NARC serves as a charismatic manifestation of a similar cultural response to establish a relational structure for church communities that can appropriately reflect upon and identify with the contemporary context. This implies that each

movement needs to be biblically sound, faithful to its conceptualization, and relevant to the context in order to cultivate its own way of being the church.
