~~[PDF] Estimating Costing Book by M.Chakraborty free Download~~
Building Estimation It is processed by predicting the probable cost
of a project by calculating material quantity and their costing with
help of market rates before undertaking any construction project .

~~Building Estimation Step by Step In Excel Sheet~~

Estimating and Costing are closely the same things. The estimate is
defined as the process of calculating or computing the various
quantities and the expected expenditure to be incurred on a
particular work or project. The estimate gives the probable cost of
the work. The primary objective of an estimate is to enable one to
know the probable cost of the work before the completion of the
project.
