The majority of parents throughout the world don't even know thalassemia exists let alone what it is. But for the parents of children born with thalassemia it is a rude awakening to a life of despair and desperation for their child's future. This book is one mother's quest to try and save her daughter's life irrespective of what she has to endure. The initial realisation that her daughter had a genetically inherited disease that she had never heard of gave Aisha the drive and determination to not only research the illness but to also find a cure for her daughter.

This book offers a new interpretation of the life and legacy of the Indian reformer and intellectual, Ishvarchandra Vidyasagar (1820-91). Drawing upon autobiography, biography, secondary criticism and a range of Vidyasagar's original writings in Bengali, the book interrogates the role of history, memory and controversy, and emphasises the key challenge of pinning down the identity of an enigmatic and multi-faceted figure. By examining lesser-known works of Vidyasagar (including several pseudonymous and posthumous works) alongside the evidence of his public career, the author calls attention to the colonial transformation of intellectual and social life, the nature of life writing, the limits of standard biographies and the problem of modern Indian identity as such. Based on decades of research and an original perspective, this book will be especially useful to scholars of modern Indian history, biographical studies, comparative literature and those interested in Bengal.
