Faces in the Water is a fictionalized account of the eight years that Janet Frame spent institutionalized after being diagnosed with schizophrenia. I don't know that there's much point in dissecting out history from fiction (though Frame did publish three volumes of autobiography, so if you were really interested you could probably take a stab at it).

Janet Frame's Faces in the Water was a book club pick for January, and a book which I had not expected to love quite as much as I did. From the outset, I was immediately captivated.
