Brain-Compatible Activities for Mathematics, Grades 4–5 provides brain-friendly, ready-to-use mathematics lessons for the classroom. Teachers will find step-by-step guidance and all the necessary reproducible materials for mathematics instruction that involves group work, reflection, movement, and visualization. Through activities such as Scuba Division, Party Planners, Sunken Treasure, and Parachute Drop, intermediate learners will enjoy developing skills connected with multiplication and division, fractions and decimals, geometry and measurement, algebra, data analysis, and more. Aligned with NCTM standards and focal points, the instructional strategies enhance motivation and content retention, while addressing individual intelligences. Also included is instruction to: Promote writing as an important learning tool Use concrete models to make concepts meaningful Connect mathematical ideas to the real world Incorporate graphic organizers to help students organize their thinking Deepen and revitalize instruction using Sousa's proven brain-compatible approach for helping every student develop self-confidence in mathematics!

Transformation and Empowerment through Education challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions, and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices, both inside and outside the classroom. The range of topics covered includes equity, access, inclusivity, social justice, leadership and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies and educational linguistics, as well as educators and policymakers around the world.
