Demystifying the problems A first step in helping children with learning difficulties is for teachers and parents to appreciate the nature of these problems, help children understand their unique learning strengths and weaknesses, and make appropriate accommodations in their school programs.

**Helping Children with Low Self-Esteem** is a guidebook to help children who: don't like themselves or feel there is something fundamentally wrong with them; "have been deeply shamed"; "have received too much criticism or haven't been encouraged enough"; "let people treat them badly because they feel they don't deserve better"; "do not accept praise or appreciation because they feel they don't deserve it"; "feel defeated by life, fundamentally unimportant, unwanted or unlovable"; "bully because they think they are worthless or think they are worthless because they are bullied"; and "feel they don't belong or do not seek friends because they think no-one would want to be their friend.

"A wise and realistic program for instilling genuine self-esteem in children." -Kirkus Reviews, starred review Help your child cultivate real, lasting confidence! In Kid Confidence, a licensed clinical psychologist and parenting expert offers practical, evidence-based parenting strategies to help kids foster satisfying relationships, develop competence, and make choices that fit who they are and want to become. As parents, it's heartbreaking to hear children say negative things about themselves. But as children grow older and begin thinking about the world in more complex ways, they also become more self-critical.

Alarmingly, studies show that self-esteem, for many children, takes a sharp drop starting around age eight, and this decline continues into the early teen years. So, how can you turn the tide on this upsetting trend and help your child build genuine self-esteem? With this guide, you'll learn that self-esteem isn't about telling kids they're "special." It's about helping them embrace the freedom that comes with a quiet ego--a way of being in the world that isn't preoccupied with self-judgment, and instead embraces a compassionate view of oneself and others that allows for both present awareness and personal growth. When kids are less focused on evaluating and comparing themselves with others, they are freer to empathize with others, embrace learning, and connect with the values that are bigger than themselves. You'll also discover how your child's fundamental needs for connection, competence, and choice are essential for real self-esteem.

Connection involves building meaningful and satisfying relationships that create a sense of belonging. Competence means building tangible skills. And choice is about being able to make decisions, figure out what matters, and choose to act in ways that are consistent with personal values. When children are able to fulfill these three basic needs, the question of "Am I good enough?" is less likely to come up. If your child is suffering from low self-esteem, you need a nuanced parenting approach. Let this book guide you as you help your child create unshakeable confidence and lasting well-being.

"Children everywhere want to fit in with a group, resist peer pressure, and be good sports--but even the most socially adept children struggle at times. But after reading this ... guide on their own or with a caring adult, kids everywhere [may] be [more] equipped to face any friendship challenges that come their way"--Amazon.com.

All parents want their children to be successful in school, sports, and extracurricular activities. But it's not just about giving your kids praise or setting them on the right direction. Research shows that success is often dependent on mindset. Hard work, perseverance, and effort are all hallmarks of a growth mindset. That's where Mindsets for Parents: Strategies to Encourage Growth Mindsets in Kids comes in. Designed to provide parents with a roadmap for developing a growth mindset home environment, this book's conversational style and real-world examples make the popular mindsets topic approachable and engaging. It includes tools for informally assessing the mindsets of both parent and child, easy-to-understand brain research, and suggested strategies and resources for use with children of any age. This book gives parents and guardians powerful knowledge and methods to help themselves and their children learn to embrace life's challenges with a growth mindset and an eye toward increasing their effort and success!

This practical guidebook, with a beautifully-illustrated storybook, enables teachers, parents and professionals to help children aged 4-12 connect with unresolved feelings affecting their behaviour. Helping Children with Low Self-Esteem is a guidebook to help children who: don't like themselves or feel there is something fundamentally wrong with them have been deeply shamed have received too much criticism or haven't been encouraged enough let people treat them badly because they feel they don't deserve better do not accept praise or appreciation because they feel they don't deserve it feel defeated by life, fundamentally unimportant, unwanted or unlovable bully because they think they are worthless or think they are worthless because they are bullied and, feel they don't belong or do not seek friends because they think no-one would want to be their friend. Ruby and the Rubbish Bin is a story for children with low self-esteem. Ruby hates herself so much that she often feels more like a piece of rubbish than a little girl. Sometimes Ruby feels so miserable that she wants to sleep and sleep and never wake up again. Then Ruby meets Dot and, over time, Dot helps Ruby to move from self-hate to self-respect. After a very important dream, and help from Dot, Ruby finds her voice and her anger, and stands up to the bullies. She makes new friends and knows what it's like to feel happy for the first time in her life.

How to Raise Kids Who Aren't Asholes is a clear, actionable, sometimes humorous (but always science-based) guide for parents on how to shape their kids into honest, kind, generous, confident, independent, and resilient people...who just might save the world one day. As an award-winning science journalist, Melinda Wenner Moyer was regularly asked to investigate and address all kinds of parenting questions: how to potty train, when and whether to get vaccines, and how to help kids sleep through the night. But as Melinda's children grew, she found that one huge area was ignored in the realm of parenting advice: how do we make sure our kids don't grow up to be assholes? On social media, in the news, and from the highest levels of government, kids are increasingly getting the message that being selfish, obnoxious and cruel is okay. Hate crimes among children and teens are rising, while compassion among teens has been dropping. We know, of course, that young people have the capacity for great empathy, resilience, and action, and we all want to bring up kids who will help build a better tomorrow. But how do we actually do this? How do we raise children who are kind, considerate, and ethical inside and outside the home, who will grow into adults committed to making the world a better place? How to Raise Kids Who Aren't Asholes is a deeply researched, evidence-based primer that provides a fresh, often surprising perspective on parenting issues, from toddlerhood through the teenage years. First, Melinda outlines the traits we want our children to possess--including honesty, generosity, and antiracism--and then she provides scientifically-based strategies that will help parents instill those characteristics in their kids. Learn how to raise the kind of kids you actually want to hang out with--and who just might save the world.

Provides a step-by-step guide for improving children's self-esteem. Practical and hands-on, with clear and concise instructions, shows parents how to identify healthy and low self-esteem behaviors in their children. Parents will also learn how to overcome and correct unproductive habits that limit their child's performance. From developing a series of ideas for empowering children toward self-responsibility and awareness, parents will get the information needed to activate their child's potential for maximum success. Parents will learn how self-esteem manifests in children, how children with healthy and low self-esteem communicate, and how healthy and low self-esteem characteristics affect parenting skills.

"Suitable for use with children aged 7-11"--Cover.

(A story for children with low self-esteem) Ruby hates herself so much that she often feels more like a piece of rubbish than a little girl. Children at school bully her. Sometimes Ruby feels so miserable that she wants to sleep and sleep and never wake up again. Then one day, Ruby meets Dot the lunchtime lady, When Ruby feels Dot's kindness and understanding, something warm happens in Ruby's tummy. Over time, Dot helps Ruby to move from self-hate to self-respect. In fact Dot's smile makes Ruby feel like a princess. After a very important dream, and help from Dot, Ruby decides enough is enough. She finds her voice and her anger, and stands up to the bullies. She makes new friends and knows what it's like to feel happy for the first time in her life.

"Instead of trusting kids with choices . . . many parents insist on micromanaging everything from homework to friendships. For these parents, Stixrud and Johnson have a simple message: Stop." -NPR "This humane, thoughtful book turns the latest brain science into valuable practical advice for parents." -Paul Tough, New York Times bestselling author of How Children Succeed A few years ago, Bill Stixrud and Ned Johnson started noticing the same problem from different angles: Even high-performing kids were coming to them acutely stressed and lacking motivation. Many complained they had no control over their lives. Some stumbled in high school or hit college and unraveled. Bill is a clinical neuropsychologist who helps kids gripped by anxiety or struggling to learn. Ned is a motivational coach who runs an elite tutoring service. Together they discovered that the best antidote to stress is to give kids more of a sense of control over their lives. But this doesn't mean giving up your authority as a parent. In this groundbreaking book they reveal how you can actively help your child to sculpt a brain that is resilient, and ready to take on new challenges. The Self-Driven Child offers a combination of cutting-edge brain science, the latest discoveries in behavioral therapy, and case studies drawn from the thousands of kids and teens Bill and Ned have helped over the years to teach you how to set your child on the real road to success. As parents, we can only drive our kids so far. At some point, they will have to take the wheel and map out their own path. But there is a lot you can do before then to help them tackle the road ahead with resilience and imagination.
