In this volume, the editors argue that this discussion has been co-opted to reflect the values and worldviews of special interest groups such as elites in power, politicians, corporate educational foundations, and the media. The unthinkable has happened. An Afghan pilot, recruited and trained by the U.S. has hijacked a Reaper drone armed with six Hellfire missiles. His intentions are unclear. Is he working on Iran's behalf to acquire the stealthy Predator, or is he hell-bent on extracting his own version of revenge... or both? Alpha Four is the first to receive the brunt of the drone's massive firepower, but the terrorist is not finished. When Alpha Four discovers his true intentions, they rally to stop this threat before war erupts between Iran and the United States. Time is short and the stakes are high, but first the team must bury the dead. For, as in all wars, it is not only the enemy that dies.
