The California Vehicle Code contains almost all statutes relating to the operation, ownership and registration of vehicles (including bicycles) in the state of California in the United States. It also contains statutes concerning the California Department of Motor Vehicles and the California Highway Patrol. The Vehicle Code includes various criminal law sections relating to the theft and misuse of motor vehicles. The Vehicle Code is one of 29 codes containing general statutes adopted by the California legislature and that have either been signed into law by the governor or that have become law without the governor's signature. This is the 2016 edition, and is unabridged.

K.S.A. 8-173, as amended by L. 1999, Ch. 162, section 10, does not require a county treasurer to keep a copy of the proof of insurance provided by an applicant for registration of a motor vehicle. A facsimile copy of proof of insurance may be accepted by a county treasurer when registering a motor vehicle; however, proof of insurance may not be made by telephone. An applicant for motor vehicle registration must provide proof of insurance in addition to a certificate signed by the applicant. Liability of county treasurers or their employees arising out of their motor vehicle registration duties cannot be determined absent specific facts. Because county treasurers are county officers and their employees are county employees, generally the county or the county's insurance company would provide for their defense.

The complete text of the 2015 California Vehicle Code. It also includes a list of violations of the code.

Forensic Investigation of Stolen-Recovered and Other Crime-Related Vehicles provides unique and detailed insights into the investigations of one of the most common crime scenes in the world. In addition to a thorough treatment of auto theft, the book covers vehicles involved in other forms of crime—dealing extensively with the various procedures and dynamics of evidence as it might be left in any crime scene. An impressive collection of expert contributors covers a wide variety of subjects, including chapters on vehicle identification, examination of burned vehicles, vehicles recovered from under water, vehicles involved in terrorism, vehicle tracking, alarms, anti-theft systems, steering columns, and ignition locks. The book also covers such topics as victim and witness interviews, public and private auto theft investigations, detection of trace evidence and chemical traces, vehicle search techniques, analysis of automotive fluids, vehicle registration, document examination, and vehicle crime mapping. It is the ultimate reference guide for any auto theft investigator, crime scene technician, criminalist, police investigator, criminologist, or insurance adjuster. Extensively researched and exceptionally well-written by internationally-recognized experts in auto theft investigation and forensic science All the principles explained in the text are well-illustrated and demonstrated with more than 450 black and white and about 100 full-color illustrations, many directly from real cases Serves as both a valuable reference guide to the professional and an effective teaching tool for the forensic science student
