If you have read other books about love that have fallen short, read

this book. Mapping the Terrain of the Heart is an

eloquent guide through love's diverse landscapes that provides a whole new way to think about love relationships. Both

descriptive and prescriptive, it is a book for anyone looking to

experience a committed relationship full of passion and tenderness. In the labyrinth of love, every one of us has his or her own inner map.

Psychologists

frequently—and

—throw up

obstacles, create

roadblocks, and

take detours
around these six

capacities. We

think such detours

will take us where

we want to go in a

too often they do

not. Goldbart and
