For 20 years, School Zone I Know It! books have set the standard for home learning materials. Each book is developed by professional educators to complement the curriculum at each grade. Each I Know It! book has clear instructions and fun-to-do exercises.

We believe kids get better at math with practice, resulting in confidence and positive attitude towards math that is required to excel in school. This workbook is intended for 2nd graders, where students have already mastered single digit addition and subtraction. This workbook provides kids with additional math practice that complements and supplements what is taught at school. The focus is on key foundational mathematics basics: addition, subtraction, and introduction to multiplication, division, geometry, and fractions. Note: Many schools do not start multiplication or division until 3rd grade, but we are covering these concepts here since it does take time and practice to get comfortable with multiplication and division.

Help teach, review, and extend important math skills with board games, stickers, and more!ff,,f.,Find colorful activities galore that encourage kids to view math as fun while they explore. They open theff,,f.,Math Basics: A Press-Out Bookff,,f.,for second grade, and right away find bold, bright reward stickers. Unique to this workbook are press-out base ten pieces, numbers 0-10, and analog clock hands, along with a clock face (on one side) and base ten activity board (on other side). Using these "manipulatives" adds hands-on practice to two-dimensional learning. After pressing out the pieces store them in an envelope or small, resealable plastic bag. All throughout the workbook the activities progress from easy to difficult; promote self-directed learning; sharpen focus, memory, and mastery; and offer unlimited learning experiences. This workbook's math curriculum incorporates the Common Core State Standards for Mathematics as well as standards published by the National Council of Teachers of Mathematics (NCTM). It's a great take-anywhere math boost!
