In a ruined world, Manhattan is now New America, a walled-in society based on equality. But the perfect facade hides a dark truth. A timid math geek, sixteen-year-old Drayden watches his life crumble when his beloved mother is exiled. The mystery of her banishment leads him to a sinister secret: New America is in trouble, and every one of its citizens is in jeopardy. With time running out, he enters the Initiation. It's a test within the empty subway tunnels—a perilous journey of puzzles and deadly physical trials. Winners join the ruling Bureau and move to its safe haven. But failure means death. Can Drayden conquer the Initiation, or is salvation out of his grasp?

In this world and society, God has placed each of us in particular places and circumstances. We, according to our own action (karma), evolution, education, talents and abilities, earn our living. Can everyone become rich? It may or may not be possible. But can everyone improve their lot if they become successful and/or happier? The answer is firmly affirmative. If one meditates regularly, one can achieve this modest goal.

This book explores the intricacies of court interpreting through a thorough analysis of the authentic discourse of the English-speaking participants, the Spanish-speaking witnesses and the interpreters. Written by a practitioner, educator and researcher, the book presents the reader with real issues that most court interpreters face during their work and shows through the results of careful research studies that interpreter's choices can have varying degrees of influence on the triadic exchange. It aims to raise the practitioners' awareness of the significance of their choices and attempts to provide a theoretical basis for interpreters to make informed decisions rather than intuitive ones. It also suggests solutions for common problems. The book highlights the complexities of court interpreting and argues for thorough training for practicing interpreters to improve their performance as well as for better understanding of their task from the legal profession. Although the data is drawn from Spanish-English cases, the main results can be extended to any language combination. The book is written in a clear, accessible language and is aimed at practicing interpreters, students and educators of interpreting, linguists and legal professionals.

The Information Security Conference 2001 brought together individuals involved in multiple disciplines of information security to foster the exchange of ideas. The conference, an outgrowth of the Information Security Workshop (ISW) series, was held in Málaga, Spain, on October 1–3, 2001. Previous workshops were ISW '97 at Ishikawa, Japan; ISW '99 at Kuala Lumpur, Malaysia; and ISW 2000 at Wollongong, Australia. The General Co chairs, Javier López and Eiji Okamoto, oversaw the local organization, registration, and performed many other tasks. Many individuals deserve thanks for their contribution to the success of the conference. José M. Troya was the Conference Chair. The General Co chairs were assisted with local arrangements by Antonio Maña, Carlos Maraval, Juan J. Ortega, José M. Sierra, and Miguel Soriano. This was the first year that the conference accepted electronic submissions. Many thanks to Dawn Gibson for assisting in developing and maintaining the electronic submission servers. The conference received 98 submissions of which 37 papers were accepted for presentation. These proceedings contain revised versions of the accepted papers. Revisions were not checked and the authors bear full responsibility for the contents of their papers. The Program Committee consisted of Elisa Bertino, Università di Milano; G. R.
