The story of Bronko Nagurski, and many more like him, is recounted with unabashed awe and affection by Jeff Davis in ''Papa Bear: The Life and Legacy of George Halas.'' Halas was a nasty, vindictive, phenomenally tightfisted man who created professional football as we know it; he midwived the National Football League into existence after failing to land the right fielder's job with the Yankees in 1919.

The first truly comprehensive biography on George Halas, the father of professional football The founder of the National Football League and father of the Chicago Bears, George Halas single-handedly changed the way Americans spend their Sundays. Papa Bear tells the incredible story of how one man grabbed an outlaw game by the throat, shook it up, and made it into the richest and most popular spectator sport on the planet. Nearly 20 years after his death, Halas remains one of the towering figures of professional sports--rivaling the legendary Vince Lombardi--yet there has never been an authoritative biography published about this great American success story. At last, Papa Bear fills that gap. Written with unprecedented access to Halas's family, his closest friends, and associates, this thoroughly researched account includes exclusive interviews and a treasure trove of never-published archival materials on the Hall of Famer and his enduring legacy.

Celebrate the bond shared between Pap Bear and his cubs with this collection of funny stories featuring the Berenstain Bears.

Papa Bear takes care of things at home while Mama Bear goes away for a day.

Family is arguably one of the most important influences in a child's life. A family is there from the first moments of life, and children depend on parents to protect and provide for them. Parents and family form a child's first relationships. These relationships teach and prepare a child for the experiences the life ahead of them will bring. Some experiences, however inevitable they may be, can not be prepared for. It is in the face of these experiences that a family must rally together. Papa-Bear, the beloved patriarch of a bear family, is called to battle against an undefeated opponent. The pillars of faith, love, and family, must stand resilient against the immense weight of panic, fear, and loss as Papa-Bear prepares to fight for his life.Papa-Bear answers the challenge despite being untried, unprepared, and tragically outmatched. Though this challenger has never been slain, strong and weak alike have faced this destructive foe and forced its retreat. Will Papa-Bear be one of the victors?Sudden loss is painful for adults to understand and more so for the youngest in the family. When Cancer infects someone, it's not just the individual the desires attacks. It attacks every family member from the youngest leaves down to the oldest root of the family tree. Idealism is natural. Optimism surrounds every "What if...". The darker side of "What if..." may haunt the back of everyones mind, but it is seldom discussed. When a dark nightmare becomes a crushing reality, the strength to accept and understand losing one of life's purest loves is difficult to muster despite love and support all around. Papa-Bear was the self-claimed title of my late father, whose memory this book is both based on and dedicated to. After losing his three-month fight with aggressive Cancer in late July 2017, I wrote the enclosed story for my grief-stricken sister to help her have the much-needed conversation with her young children in the face of their first genuine loss."Papa-Bear Isn't Feeling Well" not only helps open a dialogue between family elder and child, but also serves as a reminder to young and old alike, that as difficult as life will be after a tragic loss, life will go on! Love will always persevere in the end. Love will forever remain, and memories will help sustain!
