(PDF) Remittances and Development in Latin America

Mar 20 2020. Family remittances to Latin America and the Caribbean grew by approximately eight percent in 2019 compared to 2018. This marks a slowing trend in remittance growth that began in 2017. The slowing growth is associated with remittances to Mexico having decelerated from 11.2 percent to 7 percent as well as from significant reductions from other important remittance recipient countries such as El Salvador, Haiti, and Colombia.

(PDF) The Development Impact of Remittances in Latin America

Abstract. International private transfers from immigrant workers to families and friends have surged in Latin America. These transfers, also known as remittances, grew from a mere US\$5 billion in 1990 to US\$74.3 billion in 2016, supplementing the income of millions of families in the region. Particularly, remittances can contribute to human development by lifting large populations out of extreme poverty and by enabling better housing, education, and health.
