Rising Stars Study Guides Science Year 5 by Hodder ...

The learning in this unit is linked to the year 5 programme of study for science in the national curriculum 2014 in that children learn to explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object. They also identify the effects of air resistance, water resistance and ...

Rising Stars Study Guides offer children aged 7 to 11 the chance to study, revise and practise their key skills in English, Maths and Science. With 24 units in every book, each fully linked to the curriculum, the series is ideal for homework and revision as well as for use in class.

With updated pupil-friendly tasks and diagnostic material, these books are tried and tested in over 5000 schools. The book is simple to use and highly effective for identifying areas of weakness and personalizing remediation.

This series offers a range of study books for use throughout the Junior years. Every topic is covered with lively explanations and practice questions, hints and tips, and guidance for children who want to learn more about the topic.

'Rising Stars Assessment Punctuation and Spelling Pogress Tests' are a whole school approach to the assessment of science for the new Programme of Study.

A hands-on whole-school primary science programme designed to inspire and engage children. Put working scientifically at the heart of your curriculum with Switched on Science Second Edition. This fully updated edition covers the English national curriculum from EYFS to Year 6 with six exciting units in each year group. The practical Teacher's Guides provide step-by-step instructions for teaching the unit with emphasis on helping develop children's investigative and working scientifically skills. Assessment activities and guidance are provided to help teachers identify children working at, above and towards the expected standard. Less experienced teacher's and non-science specialists will find embedded CPD to build their confidence in teaching primary science. Accompanying digital resources are available online at My Rising Stars www.risingstars-uk.com/myrisingstars. Front of class Powerpoints and downloadable worksheets give teachers easy access to the resources they will need to deliver the programme, saving them hours of preparation. Digital interactive activities, bright modern videos and truly fun practical activities will help inspire inquisitive minds in science. For teacher's apprehensive about running practical science activities, step-by-step CPD will provide helpful support. 'Switched on Science provides lots of fantastic lesson ideas, full of practical activities, that can easily be adapted (if needed) to meet the needs of each class. It is easy to use, even for the non-specialist, and simply makes the planning and teaching of science a breeze. Children look forward to their science lessons and can't wait to find out what they will be exploring next.' Tim Handley, Year 5 Teacher at Woodlands Primary School Year 5 topics 1. Out of this world - Earth and space 2. Material world - Properties and changes of materials 3. Circle of life - Living things and their habitats 4. Let's get moving - Forces 5. Growing up and growing old - Animals, including humans SCIENCE IN ACTION TOPIC 6: Amazing changes - Working Scientifically Skills project.

Bring the new primary curriculum to life with 'Switched on Science'. Packed full of hands-on experiments, creative investigations and new approaches to traditional topics, the series offers teachers original ways in which to run science lessons that will engage every pupil.

Ten years after the meta-human Specials had their standoff against the government, they find themselves brought together once again, this time to stop the Special known as Critical Mass after she takes the city of Chicago hostage.
