Folks, Gyro-compass Mark XIV, Mod. 1, 17-1400D, 1944, is a service manual for the most widely built gyro of WW II. This gyro was used on pretty much any ship that did not have automated fire control. In this online version of the manual we have attempted to keep the flavor of the original layout while taking advantage of the Web's universal accessibility.

system to be connect together so that either each heading maker can be control and display in UDR Bulkhead Display.

~~Refurbished gyro - Global Ship Spares~~

A gyrocompass repeater A gyrocompass is a type of non-magnetic compass which is based on a fast-spinning disc and the rotation of the Earth (or another planetary body if used elsewhere in the universe) to find geographical direction automatically. The use of a gyrocompass is one of the seven fundamental ways to determine the heading of a vehicle.
