Nothing happening in America today will do more to affect our children's future than the wave of new immigrants flooding into the country, mostly from the developing world. Already, one in ten Americans is foreign-born, and if one counts their children, one-fifth of the population can be considered immigrants. Will these newcomers make it in the U.S? Or will today's realities -- from identity politics to cheap and easy international air travel -- mean that the age-old American tradition of absorption and assimilation no longer applies? Reinventing the Melting Pot is a conversation among two dozen of the thinkers who have looked longest and hardest at the issue of how immigrants assimilate: scholars, journalists, and fiction writers, on both the left and the right. The contributors consider virtually every aspect of the issue and conclude that, of course, assimilation can and must work again -- but for that to happen, we must find new ways to think and talk about it. Contributors to Reinventing the Melting Pot include Michael Barone, Stanley Crouch, Herbert Gans, Nathan Glazer, Michael Lind, Orlando Patterson, Gregory Rodriguez, and Stephan Thernstrom.

Three plays by Israel Zangwill, a noted Jewish playwright, published together for the first time in their original form and accompanied by extensive scholarly commentary.

The catalyst for much of classical pragmatist political thought was the great waves of migration to the United States in the early twentieth century. Jos é -Antonio Orosco examines the work of several pragmatist social thinkers, including John Dewey, W. E. B. Du Bois, Josiah Royce, and Jane Addams, regarding the challenges large-scale immigration brings to American democracy. Orosco argues that the ideas of the classical pragmatists can help us understand the ways in

which immigrants might strengthen the cultural foundations of the United States in order to achieve a more deliberative and participatory democracy. Like earlier pragmatists, Orosco begins with a critique of the melting pot in favor of finding new ways to imagine the civic role of our immigrant population. He concludes that by applying the insights of American pragmatism, we can find guidance through controversial contemporary issues such as undocumented immigration, multicultural education, and racialized conceptions of citizenship.

This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US-American identities today. These myths include the myth of » discovery, « the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of the West, and the myth of the self-made man. The chapters provide extended analyses of each of these myths, using examples from popular culture, literature, memorial culture, school books, and every-day life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

Shines a light on what it means to cook and eat American food, in all its infinitely nuanced and ever-evolving glory. ” —Anthony Bourdain American food is the story of mash-ups. Immigrants arrive, cultures collide, and out of the push-pull come exciting new dishes and flavors. But for Edward Lee, who, like Anthony Bourdain or Gabrielle Hamilton, is as much a writer as he is a chef, that first surprising bite is just the beginning. What about the

people behind the food? What about the traditions, the innovations, the memories? A natural-born storyteller, Lee decided to hit the road and spent two years uncovering fascinating narratives from every corner of the country. There ' s a Cambodian couple in Lowell, Massachusetts, and their efforts to re-create the flavors of their lost country. A Uyghur caf é in New York ' s Brighton Beach serves a noodle soup that seems so very familiar and yet so very exotic—one unexpected ingredient opens a window onto an entirely unique culture. A beignet from Caf é du Monde in New Orleans, as potent as Proust ' s madeleine, inspires a narrative that tunnels through time, back to the first Creole cooks, then forward to a Korean rice-flour hoedduck and a beignet dusted with matcha. Sixteen adventures, sixteen vibrant new chapters in the great evolving story of American cuisine. And forty recipes, created by Lee, that bring these new dishes into our own kitchens.

A Chinese journalist describes his experience in the U.S., and shares his observations on the American people and culture

The Melting Pot is a story about an African American family from Southern Mississippi. The central theme of the story is one of love, forgiveness, and understanding. Travel with the Taylor and Grisby family as they go on a journey that will empower each of them. Their problems and challenges bring them closer than they ever thought they would be. Through trial and error they learn the meaning of real love. This story will help a person look at how they interact in their own family. Even in hard times the Taylor's and Grigsby's were comitted to Family and Loving one another. I was inspired to write The Melting Pot after hearing the various stories of my own family, and how they migrated from the South to California. Both of my parents came to California, and brought with them, their southern traditions of family, love and unity.

Against Open Borders by Reihan Salam: Conversation Starters Should we lock people out of the middle class, or should we lock people out of the country? Reihan Salam criticizes immigration advocates who welcome millions of immigrants with low-level skills who will never be able to reach middle-class status because of their lack of skills. These advocates are the ones who are "in a position to employ vast numbers of low-wage helpers, who could do menial jobs more cheaply and reliably than machines.." This, according to Salam, will only lead to even greater inequality among social classes. "We don't want to live in an America with an underclass that is forever locked out of middle-class prosperity," he says. Melting Pot or Civil War is cited by a New York Times review as a book that will change the conversation about immigration. It is written by Salam who is Executive Editor of National Review and co-author of Grand New Party: How Conservatives Can Win the Working Class and Save the American Dream. A Brief Look Inside: EVERY GOOD BOOK CONTAINS A WORLD FAR DEEPER than the surface of its pages. The characters and their world come alive, and the characters and its world still live on.
