Sustainable Rural Development: Sustainable livelihoods and ...

Sustainable Rural Livelihoods: A Framework for Analysis. The concept of ' sustainable livelihoods ' is increasingly important in the development debate. This paper outlines a framework for analysing sustainable livelihoods, defined here in relation to five key indicators. The framework shows how, in different contexts, sustainable livelihoods are achieved through access to a range of livelihood resources (natural, economic, human and social capitals) which are combined in the pursuit of ...

**Sustainable Rural Livelihoods: Practical Concepts for the 21st Century.** The purpose of this paper is to provoke discussion by exploring and elaborating the concept of sustainable livelihoods. It is based normatively on the ideas of capability, equity, and sustainability, each of which is both end and means. In the 21st century livelihoods will be needed by perhaps two or three times the present human population.

The sustainable livelihoods framework in 3.1.1 is an effort to conceptualise livelihoods in a holistic way, capturing the many complexities of livelihoods, and the constraints and opportunities that they are subjected to. These constraints and opportunities are shaped by numerous factors, ranging from global or national level trends and structures over which individuals have no control, and may not even be aware of, to more local norms and institutions and, finally, the assets to which the ...

The sustainable livelihoods approach facilitates the identification of practical priorities for actions that are based on the views and interests of those concerned but they are not a panacea. It does not replace other tools, such as participatory development, sector-wide approaches, or integrated rural development.
