Every year, more than 1800 residents and fellows and more than 2000 clinicians must take the CV board exam. This cardiovascular board (and MOC) review text consists of hundreds of questions created by the experts at the Cleveland Clinic that mimic the ABIM CV boards. The 3rd edition features new questions relating to cardiac cath and to electrophysiology,, and several sections, including the congenital heart and hypertension section, are expanded. This edition also presents more case-based questions and has a full-color design.

This user-friendly review question book is geared specifically to candidates taking the Cardiovascular Boards and the Cardiovascular section of the Internal Medicine Boards, whether for initial certification or for recertification. The book contains over 700 questions with answers, focusing on the specific areas tested. Content areas are covered in the same proportion as on the actual exam to ensure highly targeted, high-yield preparation. This edition's questions are based on patient-oriented scenarios to mimic the Boards. The electrophysiology chapters have been completely revised and include more tracings. Sections on heart failure, coronary artery disease, and STEMI treatment have been significantly revised to reflect current American Heart Association-American College of Cardiology guidelines.

"The Cleveland Clinic Cardiology Board Review, 2nd Edition, continues to offer thorough preparation for board certification and recertification exams in cardiology. It is written by distinguished clinicians from the Cleveland Clinic Foundation's Department of Cardiovascular Medicine and based on the Cleveland Clinic Foundation's popular annual Intensive Review of Cardiology course. The book provides a comprehensive, state-of-the-art review of every area of contemporary cardiovascular medicine. Emphasis is on board relevant clinical material and accurate real-world clinical decision making. More than 400 illustrations and numerous tables facilitate quick review. Board-format questions with answers and explanations appear at the end of each section. New for this edition: 4 color added throughout highlighted key points/critical issues surrounding guidelines. Online companion website with a component of online clinical cases with questions"--Provided by publisher.

Based upon the popular review course from Harvard Medical School, The Brigham Intensive Review of Internal Medicine is a comprehensive study guide for the American Board of Internal Medicine certification or maintenance of certification examination as well as for general practice review by physicians and residents. This authoritative, thorough resource provides in-depth coverage on all specialties of internal medicine, as well as palliative care, occupational medicine, psychiatry, and geriatric medicine. Editors Ajay K. Singh and Joseph Loscalzo recruited leading authorities from Harvard as well as former chief residents at Brigham and Women's Hospital to contribute to this book. Featuring over 600 board review questions, with numerous tables and figures, chapters offer detailed discussions with emphasis on essential learning points. Over 100 chapters are organized into 10 broad sections, with one additional section dedicated to board simulation. As the required content for the American Board of Internal Medicine continues to evolve, studying can prove challenging. The Brigham Intensive Review of Internal Medicine is the ideal study guide for anyone preparing for certification or recertification.
