When we reach out to the first bright light of the morning sun and stretch our arms to embrace it, we will experience immense joy. We just need to stretch our arms, and to welcome it within every cell and our being with love and enthusiasm. We will need to let go of all the inhibitions and let loose of all restrictions. The more we practice doing this, the closer we get to believe that the whole universe resides in us, in you. ” You are not a drop in an ocean but the entire ocean in a drop. ” Happiness is not an achievement; it is a realization. It is not a destination; we sense it throughout our journey. Happiness doesn ’ t depend on what we have or what we don ’ t have, it depends on what we are deep within us. When we stop constantly fighting back with what we are, when we realize that we are imperfectly the most perfect human ever created in the history of mankind. We realize our uniqueness. We can never make or produce happiness; we can only discover it because it has always been there around us and in our totality. Pure bliss has never happened to anyone through achievements, it happens when we drop the very idea of running behind, even running behind happiness and then we realize that we are complete and total, exactly as we are. This is how I write my bliss in black and white...

Our world is undergoing a reality revolution. More and more people are discovering the power of their minds to shape the world around them faster than ever before. The question is: how do you create the reality of your design? Brian Scott wants to help you find the answer. After walking away unscathed from a near-fatal shooting in his home, Brian began a fanatical search for answers. He deepened his research into parallel realities, quantum mechanics, and consciousness to uncover what happened in his close call with death. Along the way, he developed a series of techniques capable of creating profound transformations. In *The Reality Revolution: The Mind-Blowing Movement to Hack Your Reality*, Brian introduces you to the techniques that have helped his clients find lasting love, create wealth, and revitalize health. You'll

learn how to surf through parallel realities and unlock the power of your mind through a mix of researched and science-backed techniques like qi gong, meditation, quantum jumping, energy work, and reality transurfing. If you're ready to create an incredible reality for yourself, this book shows you the way.

Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results:

- The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients
- The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping
- The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service

In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. *Switch* shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

We often invoke the “ magic ” of mass media to describe seductive advertising or charismatic politicians. In *The Mana of Mass Society*, William Mazzarella asks what happens to social theory if we take that idea seriously. How would it change our understanding of publicity, propaganda, love, and power? Mazzarella reconsiders the concept of “ mana, ” which served in early anthropology as a troubled bridge between “ primitive ” ritual and the fascination of mass media. Thinking about mana, Mazzarella shows, means rethinking some of our most fundamental questions: What powers authority? What in us responds to it? Is the mana that animates an Aboriginal ritual the same as the mana that energizes a revolutionary crowd, a consumer public, or an art encounter? At the intersection of anthropology and critical theory, *The Mana of Mass Society* brings recent conversations around affect, sovereignty, and emergence into creative contact with classic debates on religion, charisma, ideology, and aesthetics.

"By contemplating and applying the precious knowledge in these pages, you will learn to make everything in your life easier . . . Relationships. Jobs. Family. Creativity. Happiness. And maybe even doing something more game-changing than you've ever thought possible." - Dave Asprey *Why do some people thrive while others just get by? What's their secret to peak performance and maximum happiness? Some call it the zest, the gusto, or the extra edge in life. The ancient Indian spiritual tradition Vedanta calls it prana, or life force. We can call it vital force. By any name, it's the fundamental fuel that activates and optimizes all physical, emotional, and cognitive functions, including consciousness, perception, thinking, judgment, and memory. In modern life, we have forgotten the golden key-the higher our energy, the better our performance in everything we do. Energy naturally impacts mind-set and moves us toward greater happiness, success, and self-awareness. This book gives you back your power with simple tools to take hold of the*

limitless energy of life itself—more swiftly and easily than you ever thought possible. Rajshree Patel is a former federal prosecutor who discovered Vedanta by accident and went on to become an internationally renowned teacher of its deep wisdom and dynamic practice. In these pages, she reveals:

- What vital force is, how it influences every single aspect of your life, how to enhance it—and how your mind, the biggest energy hog, can drain it;
- Tools to dial down the chatter of your racing mind and resolve your personal energy crisis;
- Why traditional mindfulness meditation may not be your best path to inner peace;
- Easy biohacking techniques, from breath work to meditation to movement, that reduce stress and maximize joy; and
- Ancient secrets to fuel your purpose and performance in every aspect of your life.

The Power of Vital Force is a practical pathway to the unlimited source of energy and intelligence that exists beyond the thinking and reasoning mind.

It doesn't matter that times are tough; together they'll roam the hills of the Ozarks. Soon Billy and his hounds become the finest hunting team in the valley. Stories of their great achievements spread throughout the region, and the combination of Old Dan's brawn, Little Ann's brains, and Billy's sheer will seems unbeatable. But tragedy awaits these determined hunters—now friends—and Billy learns that hope can grow out of despair, and that the seeds of the future can come from the scars of the past.
