"Rolex was established in 1908, a century ago, so one hundred years have passed from that day to the publication of this volume in which the author, John Goldberger, illustrates what he considers to be the 100 most beautiful examples ever produced. One hundred years of life, and one hundred examples, traced back through time thanks to painstaking research, with the collaboration of some of the most renowned collectors in the world, and photographed to show the characteristics of the movement, case and dial of each example in the best possible way. The top one hundred, we could say, also to narrow down the field of research, which would otherwise have been incredibly vast, to grasp the essence of a brand that has probably contributed more than any other to the development of the wristwatch. Giampiero Negretti Over 700 colour illustrations and 400 descriptions provide the collector and watch enthusiast with invaluable information on reference numbers, watchcases, faces, movements, related calibres and the year of production of each watch. The book is divided into seven chapters: Watches with a destiny; Oyster; Chronograph and moon phases; Oyster chronograph and moon phases; Datejust, Day-Date; Sport Models; Cosmograph."--BOOK JACKET.

'A gorgeously indulgent new coffee-table heavyweight.' - Esquire magazine 'An ode, a love letter, and a paean to family tradition while also being a celebration of the longevity of the Rolex brand, this tome is encyclopedic and monumental in its scope.' - New York Journal of Books For more than a century, Rolex has stood apart as the most legendary brand of watch in the world. Ever the record setter--the Daytona, belonging to actor Paul Newman, was auctioned by Phillips in New York in October 2017 for \$17.8 million--it comes as no surprise that Rolex is the most collected watch label in the world. Published to celebrate The Vintage Watch Company's 25th anniversary in 2020, the book contains a unique pictorial collection of vintage Rolex watches that have passed through the shop during the past 25 years. From early Rolex pocket watches to the world's first wristwatches, elegant in their simplicity yet revolutionary in their impact, to the very first Submariners, iconic Daytonas, and jewel-encrusted Crown collections, the mesmerizing archive of vintage timepieces charts the extraordinary rise of an extraordinary brand.

PRESENTATION: HOW TO KNOW EVERYTHING ABOUT THE ROLEX GMT-MASTER The GMT-Master was created to meet the needs of Pan American Airways to supply its pilots with a wristwatch able to indicate the time back home and the time in their arrival destination simultaneously. It was necessary to give the pilots a "technical" wristwatch, which indicated simultaneously the two different times. It is from this point that the request arose from Pan Am to Rolex, to create a new watch for modern age aviators: a watch with two time zones. The name GMT-Master was chosen. Are you a watch collector and you need information about the Rolex GMT-Master? Are you a watch dealer and you want to know exactly what you are buying and selling? Do you want to know the real value of your GMT-Master? For all this and much much more, this book is perfect for you. You will also know the current value of every GMT-Master. **TOPICS** With high quality images, technical details and updated prices, this book shows and describes every GMT-Master and GMT-Master II reference. For each watch this guide explains every characteristic: crystal, bakelite bezel, anodized aluminium bezel, Cerachrom bezel, bracelet, case back, winding crown, case number with production year, dial, movement, hands, etc. Furthermore, the book shows: "Albino", bachelite, "Batman", bracelets, calibers, "circular" indexes, "circular edged" indexes, "Cornino" crown guards, "standard" crown guards, GMT hand with small arrow, Green Dial, Oysterlock, sunken holes, vintage advertisements, Underline, box, papers, the "Ice" model, "Chuck Yeager", "Tiffany & Co.", "Mission Everest", dials with Arab coats of arms, Attached are the updated estimates of every modern and vintage Rolex GMT-Master.

- The first complete book dedicated to one of the most desirable chronographs of the 1960s, Chronomaster Aviator Sea Diver by NIVADA & CROTON Chronomaster Aviator Sea Diver: this singular name belongs to one of the most original professional watches of the 1960s, combining an unparalleled number of functions with a timeless design. Created in 1961, this chronograph was produced for around ten years under several brand names, through a partnership between the Swiss company NIVADA SA and the American firm CROTON WATCH CO. This led to some of its dials bearing probably the most complicated name in watchmaking history: CROTON NIVADA GRENCHEN Chronomaster Aviator Sea Diver. Thanks to the authors' trademark rigorous methodology, the signature of the 'ONLY' reference works, this book reveals the incredible diversity of the Chronomaster models. It is intended both as an initiation for connoisseurs of exceptional watches and as a reference guide for collectors. This legendary watch will doubtless thus regain the place it deserves among the most desirable 1960s chronographs.
