voice identification. Ordinarily, Tosi testified to the reliability of the technique and Nash

## **The Admissibility of Spectrographic Voice Identification**

...

The technique of voice identification by means of aural and spectrographic comparison is still an unsettled topic in law. Although the spectrographic voice identification method has progressed greatly since it was first introduced to a court of law back in the mid 1960's, it still faces stiff resistance on the issue of admissibility in the courts today.
